

It is very important to me that K-Love radio (94.3) continues to be broadcast in my local community. My family listens daily to this program that plays family friendly, safe Christian music. The topics discussed are clean, fun and apply to all ages of people. The music gives hope and a positive message to the community. No other station in this community compares, and it's in the public's best interest for it to continue to be broadcast nationally on the current FM translators.
